

EXPENSIVE INTERNET BILLS? FROM BELL OR ROGERS

If you are disturbed at how high your bill for internet service has become since the change to the Turbo or Rocket Hub service, please join the campaign to let Bell and Rogers know how this change has affected you and your family.

It's not right. It's not fair.

Ellen Roseman, Consumer Advocate at the Toronto Star has been contacted and is interested in our story.

If you have found an alternative internet provider we'd also like to hear from you.
