

EXPENSIVE INTERNET BILLS? FROM BELL OR ROGERS

If you are disturbed at how high your bill for internet service has become on the Turbo or Rocket Hub service, please join in the campaign to let Bell and Rogers know how this change has affected you and your family.

It's not right. It's not fair.

Ellen Roseman, Consumer Advocate at the Toronto Star is involved and interested in our story.

If you have found an alternative internet provider we'd also like to hear from you.
